# Processing CDS Alerts

## From the Home Screen

Select CDS Alerts in CWL on the Home Screen

## For Alert Type: Diagnosis Details

1. Highlight Patient Name in the Work List window
2. Select Diag & Problem List button from the menu
3. Select the Diagnosis requiring additional details
4. Enter the missing details (Staging or Tumor Markers)
5. Select Save or Save and Affirm, as appropriate

## For Alert Type: Colon Cancer or Breast Cancer

1. Highlight Patient Name in the Work List window
2. Select Assessment button in the menu
3. Complete required items.
4. Select Reviewed

## For Alert Type: Drug/Drug, Drug/Allergy and Duplicate Screening

1. Double click on Alert in the Work List window
2. Select Comment to add information, if desired (for example, prescribed by PCP)
3. Select Approve
