Promote Plan

From the D&I window

1. Under the Plans folder Select/Highlight the Plan you want to Promote
2. Click the Promote button
3. Review the data in the Import Data column on the right hand side
 - Data Fields in Red cannot be imported until errors are resolved
 - Data Fields in Yellow contain a warning but can be imported
 - Data Fields in Green indicate that the Data can be imported
4. Use the Action column to Ignore fields from being Imported if necessary
5. Once all errors are resolved and Data field actions are confirmed click Promote
